### Building a Fraction!

Choose **five** of the vocabulary adjectives. Then, choose **a quantity** for each word! Each quantity must be different for each word. The total quantity for all the words must not exceed **25**. Then, figure the data!

Complete the table below by filling in each adjective you chose. Then, write a synonym for it. Then, decide how many of them you want. Then, choose a color!				Complete a fractional representation of the words you chose by coloring a rectangle per each word's quantity!				
Adjective	Synonym	Amount (Quantity)	Color					

Write the fraction for each adjective you chose. Then, write the factors of each numerator and denominator. Finally, find the greatest common factor!
