### Structure Challenge

*This is a four part problem. You will be scored in four categories. It's imperative that you listen carefully, cooperate, and work well as a team to utilize your time!*

*In the first part you will have 10 minutes to do the following: create a structure that is made entirely out of marshmallows and toothpicks that can bear weight. A successful structure must freely stand and be able to support a book three inches off the ground. Teams will be scored on the creativity of their structure, the height of their structure, and the ability for their structure to hold at least 1 book.*

*Teams must also complete the second part of the task in the first 10 minutes. Teams must compile a list of compound words. **A compound word is made when two words are joined to form a new word.** Teams will be awarded 5 points per compound word. Teams will present the compound words.*

*Teams must also complete the third part of the task in the first 10 minutes. **Teams** must create an advertisement poster and a 30 second commercial for their structure! The advertisement must include 5 adjectives and 5 illustrations. The commercial must include all the teammates.*

*In the final part. Your team will be given 1 minute to fill out the team rubric. Then, you will be given 30 seconds to perform your team's commercial, and finally you will be given 1 minute to test your structures.*
